

**NATHAN AIRCHIME INC. (A MEMBER OF MICROPRECISION GROUP)**  
1102 WINDHAM ROAD, PO BOX 96, SOUTH WINDHAM, CT 06266, USA  
TEL: 860 423 4575 FAX.: 860 450 0519

**Model CDF**  
**Conical Debris / Snow Filter**  
**Fit all Nathan Airchime's K, P & CS series**  
**locomotive air horns**

- Prevents debris and snow from entering horn bell, thus ensuring horn performance and safety
- Acoustically transparent
- Focuses sound forward and reduces sideways noise transference
- Quick installation and removal allows for easy and efficient servicing
- Stainless steel with UV stabilized PVC edge construction for durability and reliability
- Exceptional egg-shape design to withstand direct impact from flying rocks and birds; strong enough to support a normal weight person standing on it
- Available in different sizes for locomotive K, P and CS horns with frequencies ranging from 220 Hz to 660 Hz

Shown here – Airchime K-5LL-CDF five tone air horn
